HPE Education Services (Mohali) May
2017 - Aug 2018

Got trained by HPE tutors at Techlive Solution in Core Java.

PROJECTS

EasyApplication

May 2017 - Sep 2017

It is a non-commercial android application which I had developed in android using backend SQL. Basically, this application is for the ease of students and teachers, as it is time and resource saving as the students no more to write applications.

World Map Locator

May 2016 - Aug 2016

This a desktop Application which I had designed in java with MYSQL backend. This application will help and tell the user his/her location, path, nearest places and how to access and reach to the places fastly.

GamerSpot

Jul 2018 - Present

It is a desktop application designed in javafx and backend MYSQL (will be using Apache). This application is for gamers who wants to connect with other gamers world wide, they can make groups, chat and much more facilities is being provided in this.
